TRAILER

This is a specifically designed easy-load 4-wheel trailer with torsion rubber suspension, 4 wheel braking, auto reverse braking and hydraulic over-run coupling to EC standards. Complete with spare wheel, security straps and winch.

Total price including VAT - £3,995

N.B. The all-up tow-weight of the Beaver 23 on its trailer and including the crew's personal kit is in the order of 2,000 kg and so it is best matched with a medium to large 4x4 such as Land Rover Defender, Land Rover Discovery, Range Rover, Daihatsu, Isuzu, Mitsubishi, etc. Please check the specification of any proposed towing vehicle with the manufacturer to ensure that it meets current UK and EEC safety and legal requirements.

Trailer lighting board

7 ft wide, complete with 30 ft cable, brake, turn indicators and rear hazard lights, ready wired and complete with side-marker lights. Total price including VAT - £140

Terms of Business

£500 planning fee paid on order.

10% of the total sale price less the £500 planning fee paid on signature of contract.

40% of the total sale price paid on completion of the shell. (N.B. Fitting-out will not commence until this has cleared.)

Final 50% of the total sale price paid before delivery/collection. (N.B. Hand-over will not take place until this has cleared.)
