## Beaver 23 Trailable Narrowboats

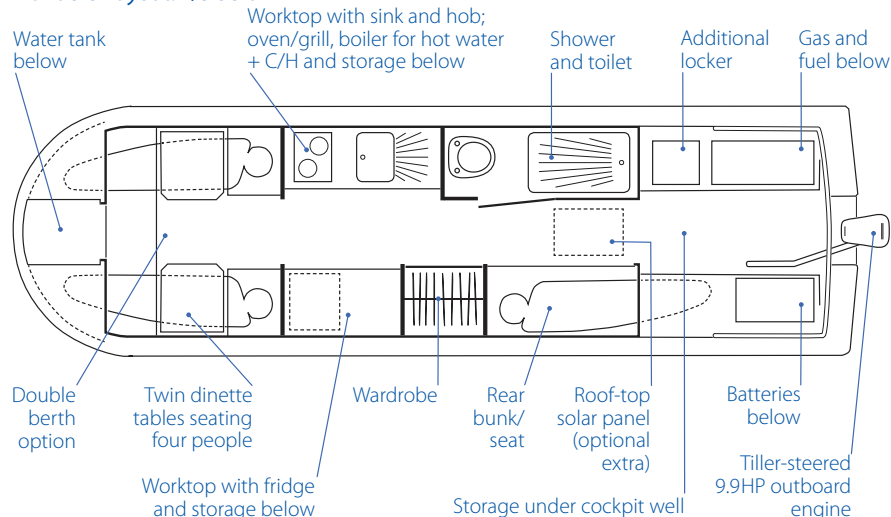

The Wilderness Beaver 23 is known throughout the waterways as the “go-anywhere” boat. It has everything you need for the perfect long or short break and gives you access to over 4,000 miles of the beautiful, peaceful waterways in this country, plus a further 6,000 miles in Europe.

Easy to launch/retrieve/tow, there are no mooring fees if you keep your Beaver 23 on its trailer — it can even provide extra accommodation at home! If you don't have the space, there are dozens of secure storage sites around the UK and Europe, or, if you prefer to keep it on a river or canal, mooring fees are much lower than for longer boats.

## Wanderer or Weekender?

The Beaver 23 is available in 2/3-berth or 4-berth options and with two levels of fit-out. If you want to take your Beaver 23 away for a week, a fortnight, or several weeks at a time, then the “Wanderer” includes a hot water and central heating system, a shower, an oven, a fridge, a CD/radio system and more. If you want to use your Beaver 23 mainly for shorter trips, the “Weekender” fit-out is the economy version. A wide range of optional extras is available: call us for further details.

### Wanderer layout: 2/3 berth

*Take it where you want to go...*

*launch into a canal or river...*

*and enjoy!*
